

Sexual Harassment

Policy & Awareness

Together we can end sexual harassment

Did you know that the Department of Labour published a new Code of Good practice on the prevention and elimination of harassment in the workplace in March 2022?

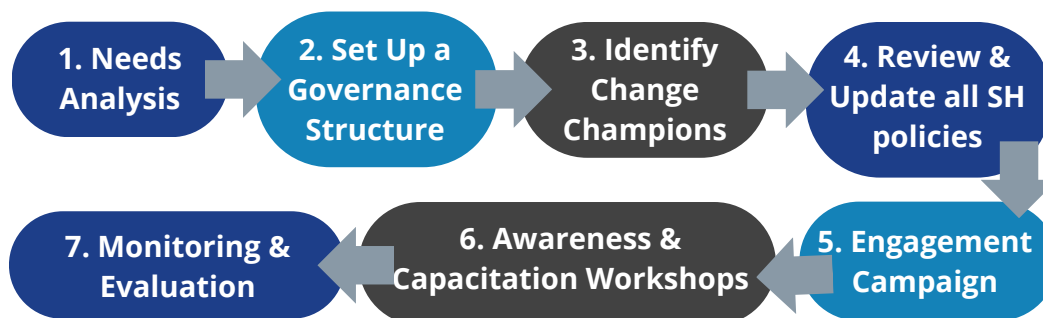

This new Code replaces the code from 2005 which was solely focused on Sexual Harassment. The new code deals with various forms of harassment in the workplace, including sexual harassment.

In addition, the new code asks of employers to update their sexual harassment policies and raise awareness among employees of the changes in legislation. A solid policy and effective reporting mechanisms are essential, especially in predominantly male-dominated industries such as the mining sector.

PeopleSmart has successfully developed and implemented Sexual Harassment policies, training and awareness campaigns.

Let us support and capacitate your HR department, leaders & employees to become change agents

Let's partner to end sexual harassment!
