

# Community Engagement and Collaboration (CEC)

## An integrated approach to Stakeholder Management

Are you satisfied with your organisation's current engagement with internal and external stakeholders?

We encounter many organisations that often experience significant challenges with stakeholders at various levels. From traditional leaders to youth formations, agricultural cooperatives to special interest groups, municipalities to schools, everyone within a commutable distance of the organisation wanting a slice of the action.

These challenges place operations at great risk as stakeholders place significant demands on organisations and often resort to violence to force the hand of the organisation. The results? Community unrest, hijacked trucks, spoiled product, road and mine closures, lost production time and in severe cases, complete closure of the operation.

PeopleSmart has successfully developed and implemented a number of CEC strategies and projects. We will partner with you to ensure a holistic approach to CEC where we will We will then implement the PeopleSmart 3-Tier CEC Strategy© aimed at creating Peace and Stability in the environment around the organisation

1. Stakeholder Mapping

2. Conduct a strategy Review & Set up a clear Governance Structure

3. Capacitation and Empowerment

4. Develop a structure for engagement
